Preventive care

Healthy start

See your provider for an annual wellness visit

Get off to a healthy start this year by scheduling an appointment with your primary care provider. This visit is a covered benefit under your health plan. During the visit, you will get any screenings or vaccines you may need. This winter, be sure to ask your provider about getting the COVID-19 vaccine and flu shot.

UnitedHealthcare® program

Oh, baby!

Earn rewards for getting care while pregnant

Did you know that without prenatal care, babies are 3 times more likely to be born small? If you are pregnant, it's important to see your provider early and often. This helps keep you and your baby healthy. You will get your weight, blood pressure and urine checked at each visit. You will get to listen to your baby's heartbeat. You also will have tests to catch any problems early.

When you go to these visits, you can earn rewards through our Healthy First Steps® program. Visit uhhealthyfirststeps.com to enroll after your first provider appointment. Or call **1-800-599-5985**, TTY **711**, for more information.

Mental health

Are you SAD?

Tips for beating seasonal depression

Seasonal affective disorder (SAD) is a form of depression. It occurs during the cold, dark months of winter. Symptoms include sadness, being in a bad mood, oversleeping and weight gain. If you think you have SAD, try these self-care tips:

- **Exercise.** Physical activity has been known to help people feel better and relieve stress. Renew Active® by UnitedHealthcare helps you stay active with a free gym membership at a location you select from a national network. If you prefer to exercise at home, you can view thousands of on-demand workout videos and streaming fitness classes.
- **Spend time outdoors.** Even though the sky may be cloudy during winter, outdoor light can help you feel better. Bundle up and take a walk during your lunch break. If you are stuck indoors, sit close to windows.
- **Take vitamins.** SAD has been linked to not having enough vitamin D. Talk to your provider about taking vitamin D or other supplements.

Illness or injury

Know where to go

When you are sick or hurt, you may not want to wait to see a health care provider. Choosing the right place to go will help you get the treatment you need faster.

When can your primary care provider take care of you?

For most illnesses and injuries, your primary care provider's office should be the first place you call. They may be able to give you advice for at-home care. They may also be able to call in a prescription to your pharmacy.

When should you go to urgent care?

If you cannot get in to see your provider, you could go to an urgent care center. Urgent care centers take walk-in patients for minor illnesses and injuries.

When should you go to a hospital emergency room?

Emergency rooms are for major medical emergencies only.

Cancer screenings

Crush cancer

Screenings to find cancer early

Getting screened for cancer is very important if you are at risk. Finding cancer early makes it easier to treat. Ask your provider about these screenings during your next visit.

Colorectal cancer screening

Colorectal cancer screening is recommended for adults ages 45 to 75. Talk to your provider about the best screening option for you.

Cervical cancer screening

Women between the ages of 21 and 29 should get a Pap smear every 3 years. Then get Pap and HPV tests every 5 years between the ages of 30 and 65. Testing can end at age 65 for women with a history of normal Pap results.

Prostate cancer screening

Men who are between the ages of 55 and 69 should make an individual decision about being screened. If you are in this age group, talk to your provider about screening.

Lung cancer screening

Adults who are between the ages of 55 and 80 should ask their provider about a lung cancer screening if they have a history of heavy smoking and currently smoke (or quit within the last 15 years).

Minnesota Department of Human Services (DHS)

You have the right to file a complaint with DHS if you believe you have been discriminated against in our health care programs because of any of the following:

- Race
- Color
- National origin
- Religion (in some cases)
- Age
- Disability (including physical or mental impairment)
- Sex (including sex stereotypes and gender identity)

Complaints must be in writing and filed within 180 days of the date you discovered the alleged discrimination. The complaint must contain your name and address and describe the discrimination you are complaining about. We will review it and notify you in writing about whether we have authority to investigate. If we do, we will investigate the complaint.

DHS will notify you in writing of the investigation's outcome. You have the right to appeal if you disagree with the decision. To appeal, you must send a written request to have DHS review the investigation outcome. Be brief and state why you disagree with the decision. Include additional information you think is important.

If you file a complaint in this way, the people who work for the agency named in the complaint cannot retaliate against you. This means they cannot punish you in any way for filing a complaint. Filing a complaint in this way does not stop you from seeking out other legal or administrative actions.
