UnitedHealthcare Community Plan List of Preferred Drugs

Frequently Asked Questions (FAQ)

Find answers here to questions you have about this UnitedHealthcare Community Plan List of Preferred Drugs. You can read all of the FAQ to learn more, or look for a question and answer.

1 What drugs are on the Preferred Drug List? (We call the Preferred Drug List the “Drug List” for short.)

The drugs on the Preferred Drug List are the drugs covered by UnitedHealthcare Community Plan. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

UnitedHealthcare will cover all medically necessary drugs if:

- your doctor or other prescriber says you need them to get better or stay healthy, *and*
- you fill the prescription at a UnitedHealthcare Community Plan network pharmacy.

UnitedHealthcare may have additional steps to access certain drugs (see question <#5> below).

You can also see an up-to-date drug list on our website at <myuhc.com/CommunityPlan> or call Member Services at <1-800-587-5187> TTY 711.

2 Does the Drug List ever change?

Yes. UnitedHealthcare Community Plan may add or remove drugs on the Drug List during the year. Generally, the Drug List will only change if:

- a cheaper drug comes along that works as well as a drug on the Drug List now, *or*
- we learn that a drug is not safe.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval for a drug. (*Prior approval* is permission from UnitedHealthcare Community Plan before you can get a drug.)
- Add or change the amount of a drug you can get (called “quantity limits”).

- Add or change step therapy restrictions on a drug. (*Step therapy* means you must try one drug before we will cover another drug.)

Questions 3, 4, and 7 below have more information on what happens when the Drug List changes.

You can always check the up-to-date Drug List online at <myuhc.com/CommunityPlan>

You can also call Member Services to check the current Drug List at <1-800-587-5187, TTY 711>.

3 What happens when another drug comes along that works as well as a drug on the Drug List now?

If you are taking a drug that is removed because another drug that works just as well is available, we will tell you. You will get a letter letting you know about the change. We will also tell you what alternate drugs are available to you. Contact your doctor or other prescriber to make sure another drug will work for you.

4 What happens when we find out a drug is not safe?

If the Food and Drug Administration (FDA) says a drug you are taking is not safe, we will take it off the Drug List right away. We will also send you a letter telling you that. Contact your doctor or other prescriber and ask about your other options.

5 Are there any restrictions or limits on drug coverage? Or are there any required actions to take in order to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases, your doctor must do something before you can get the drug. For example:

- Prior approval (or prior authorization): For some drugs, your doctor or other prescriber must get approval from UnitedHealthcare before you fill your prescription. If you don't get approval, UnitedHealthcare may not cover the drug.

- Quantity limits: Sometimes UnitedHealthcare limits the amount of a drug you can get.

- Step therapy: Sometimes UnitedHealthcare requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the

second.

You can find out if your drug has any additional requirements or limits by looking in the tables below. You can also get more information by visiting our website at <myuhc.com/CommunityPlan>. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also call Member Services and ask us to send you information about our prior authorization and step therapy restrictions.

6 How will you know if the drug you want has limitations or if there are required actions to take to get the drug?

The Preferred Drug List has a column labeled “Requirements and Limits.”

7 What happens if we change our rules on how we cover some drugs? For example, if we add prior authorization (approval), quantity limits, and/or step therapy restrictions on a drug.

We will tell you if we add prior approval, quantity limits, and/or step therapy restrictions on a drug. We will tell you before the restriction is added.. This gives you time to talk to your doctor or other prescriber about what to do next.

8 How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search by medical condition.

To search by medical condition, find the section labeled “List of drugs by medical condition”. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

- You can also search for drugs alphabetically.

To search alphabetically, go to the <Index of Covered Drugs>, find the name of your drug, and the page number where you can find the drug will be next to it.

9 What if the drug you want to take is not on the Drug List?

If you don't see your drug on the Drug List, call Member Services and ask about it. If you learn that UnitedHealthcare does not prefer the drug, you can do one of these things:

- Ask Member Services for a list of drugs that are similar to the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the Drug List that is like the one you want to take. Or
- You can ask the health plan to make an exception to cover your drug. Please see question 11 for more information about exceptions.

10 What if you just joined UnitedHealthcare Community Plan and can't find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of UnitedHealthcare. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead, or whether to request an exception.

11 Can you ask for an exception to cover your drug?

Yes. Your doctor can ask UnitedHealthcare Community Plan to make an exception to cover a drug that is not on the Drug List.

Your doctor can also ask us to change the rules on your drug.

- For example, we may limit the amount of a drug we will cover. If your drug has a limit, your doctor can ask us to change the limit and cover more.
- Other examples: Your doctor can ask us to drop step therapy restrictions or prior approval requirements.

12 How long does it take to get an exception?

First, we must receive some information from your doctor supporting your request for an exception. After we receive the information, we will give you a decision on your exception request within the timeframes required by the state, generally within 24 hours.

13 How can you ask for an exception?

To ask for an exception, you can do one of two things:

- Call Member Services. A Member Services representative will work with you and your doctor to help ask for an exception.
- Call your doctor and ask them to request an exception by calling the Prior Notification Service at <1-800-310-6826<, or they can fax a request to <866-940-7328>.

14 What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). In most instances UnitedHealthcare covers generic drugs first. If your doctor feels a brand name drug is medically necessary, you will need to ask your doctor to submit for prior approval.

15 What are OTC drugs?

OTC stands for "over-the-counter." UnitedHealthcare prefers some OTC drugs when they are written as prescriptions by your provider. You can read the UnitedHealthcare Community Plan Drug List to see what OTC drugs are preferred.

16 Does UnitedHealthcare cover OTC non-drug products?

UnitedHealthcare covers some OTC non-drug products when they are written as prescriptions by your provider. You can read the UnitedHealthcare Community Plan Drug List to see what OTC non-drug products are covered.

17 What is a Specialty Pharmacy Medication?

A specialty pharmacy medication is a drug that generally has one or more of the following characteristics:

- It's used by a small number of people
- It treats rare, chronic, and/or potentially life-threatening diseases
- It has special storage or handling requirements such as needing to be refrigerated
- It may need close monitoring, ongoing clinical support and management, and complete patient education and engagement
- It's a high cost medication
- It may not be available at retail pharmacies
- It may be oral, injectable, or inhaled

Specialty pharmacy medications are available through our specialty pharmacy network. If you have questions, call Member Services at <1-800-587-5187, TTY 711>.

List of Preferred Drugs

The List of Preferred Drugs gives you information about the drugs covered by UnitedHealthcare Community Plan. If you have trouble finding your drug in the list, turn to the Index at the end of the booklet. The first column of the chart lists the generic name of the drug. The second column of the chart lists brand name drugs. Brand name drugs are capitalized (e.g., CRESTOR). The third column in the list tells you if the preferred drug covered is the brand or generic version.

The information in the “Requirements & Limits” column tells you if UnitedHealthcare has any rules for covering your drug.

Utilization Management Restrictions

PA - Prior approval (or prior authorization)

For some drugs, your doctor or other prescriber must get approval from UnitedHealthcare Community Plan before you fill your prescription. If you don't get approval, UnitedHealthcare may not cover the drug.

QL - Quantity limits

Sometimes UnitedHealthcare Community Plan limits the amount of a drug you can get.

ST - Step therapy

Sometimes UnitedHealthcare Community Plan requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then your doctor can ask for approval to cover the second.

Other special requirements for coverage

SP – Specialty Pharmacy

Drug needs to be accessed through a network Specialty Pharmacy.
Specialty Pharmacy Drugs may require extra handling, provider coordination or patient education that can't be done at a network retail pharmacy.

Drug Tiers

The drugs listed in the PDL have different tiers. The tiers are listed in the grid below.

Tier Name	Drug Tier
Tier 1	Generic
Tier 2	Brand
